customers needs

Smik BUZZZ

An ideal way to start a new adventure where mobility, independence and fun are accessible from the first push

- **Custom built in our workshop by skilled tradesmen**
- **Each chair is the result of a collaborative approach between parents, therapists and the child to achieve the best outcome for mobility**
- **Three standard widths:
25 - 27.5 - 31 cm**
- **Seat depth growth of 10cm**
- **Three backrest styles and push handle configurations**

Independence
Mobility
Fun
